Below Data (A, B, & C) Do Not Calculate in the Final Score But Are Required

- A. No. Points on Right Antler
- B. Tip to Tip Spread
- C. Greatest Spread

Subtotal

H-1. Circumference at Smallest Place Between Burr and First Point
H-2. Circumference at Smallest Place Between First and Second Points
H-3. Circumference at Smallest Place Between Main Beam and Third Point
H-4. Circumference at Smallest Place Between Second and Fourth Points

G-1. Length of First Point, If Present
G-2. Length of Second Point
G-3. Length of Third Point, If Present
G-4. Length of Fourth Point, If Present
G-4. Length of Fourth Point, If Present

F. Length of Main Beam

D. Inside Spread of Main Beams

Spread Credit (May Equal But Not Exceed Longer MAIN BEAM)

Add Together:

- Spread Credit
- Exact Locality Where Killed:

Show the Hunting World
You Support Ethical,
Fair Chase Hunting
and Conservation of
Wildlife and Habitat...

JOIN THE ASSOCIATES
PROGRAM TODAY!

As an Associate you will receive several benefits including:
- FAIR CHASE MAGAZINE: Published quarterly and dedicated to hunting and conservation of North American big game animals. Fair Chase is available to current Associates; it is not available on the newstand.
- WHAT YOU CAN EXPECT IN EACH ISSUE OF FAIR CHASE...
  - A dedicated section listing trophies recently accepted in the Club’s current Awards Program – a great reference guide, which can be used as a supplement to the last published records book by the Club.
  - Several pages of outstanding field photos of trophy big game animals that have been accepted in the Club’s current Awards Program.
  - Feature articles about current topics of interest to today’s hunter written by well-known outdoor journalists, political events surrounding our hunting heritage and conservation policy, or scoring big game.

YOU WILL ALSO RECEIVE:
- Associates card
- Boone and Crockett window decal
- Access to the online Associates community: searchable field photos from the B&C Records database. Individual scoring database where you can score your trophies online. Electronic archives of past Fair Chase feature articles.
- A 20% discount on select Club publications and merchandise.

IT’S EASY... SIGN UP WITH YOUR TROPHY ENTRY!

To join the Club’s Associates program and receive Fair Chase magazine quarterly, check the appropriate box on the reverse side of this form when you send in your trophy entry OR call toll-free (888)840-HUNT to sign up with a credit card.

ENTRY REQUIREMENTS FOR BOONE AND CROCKETT TROPHIES

□ Current original score chart, signed and dated by the Official Measurer.
□ $40 Entry Fee. The entry fee, which is nonrefundable, is payable in cash, personal check, money order, credit card, etc., It is waived for government fish and wildlife agencies, Official Measurers, museums, educational institutions, etc.
□ Clearly focused photographs of trophy front, right side, and left side of horns or antlers. For skull, include photographs of front, top, right side, and left side. Digital photographs are acceptable, but must be high quality. 3"x4" or 4"x6" photos are preferred, either singly or all on a single 8.5"x11" sheet of glossy photo-grade paper.
□ Entry Affidavit or Materials Release Form. The hunter’s signature on the Entry Affidavit must be witnessed by either an Official Measurer, Official Measurers office, or an official who is acceptable. No Entry Affidavit is required for trophies of unknown origin, picked up, hunter deceased, purchased at flea markets, etc. However, a Materials Release Form, signed by the owner, is required for these trophies. The Materials Release Form is on the back of the score chart.
□ Hunter, Guide, and Hunt Information form or Narrative of the history of the trophy. A completed Hunter, Guide, and Hunt Information form is required even if the services of a guide were not employed on the hunt. The hunter simply needs to complete the parts of the HGF form that apply to his particular trophy.
□ Copy of hunting license/big-game tag/salvage permit used to take or possess the trophy. In lieu of a copy of the original license/ tag, B&C will accept a statement from an appropriate Game and Fish Department official certifying that a license (and any required tags) was possessed by the hunter at the time the trophy was taken. If the Game and Fish Department no longer has records at its disposal to verify a license purchase, a written statement, on official letterhead, from game and fish personnel stating the fact that the license information is no longer available is acceptable. If a salvage or possession permit is required in the particular state for picked up trophies, submit a copy of that document or a letter stating it was issued if it is no longer available.

A narrative is required for trophies of unknown origin, picked up, hunter deceased, purchased at flea markets, etc. The narrative must include pertinent information about how the trophy was acquired, condition of trophy (if found), dates, bills of sale, etc. If a boundary is involved with the category (e.g. Columbia blacktail deer), the exact location where it came from must be included.

BOONE AND CROCKETT CLUB® INSTRUCTIONS FOR MEASURING NON-TYPICAL MULE DEER AND BLACKTAIL

All measurements must be made with a 1/4-inch wide flexible steel tape to the nearest one-eighth of an inch. (Note: A flexible steel cable may be used to measure points and main beams only.) Enter fractional figures in eighths, without reduction. Official measurements cannot be taken until the antlers have air dried at a habitable room temperature for at least 60 days after the animal was killed. The 60-day drying period for a trophy that has been frozen or boiled begins the day it is removed from the freezer, boiling pot, or submersion in any liquid.

A. Tip to Tip Spread: Is measured between each point, the projection must be at least one inch long, with length exceeding width at one inch or more of length. All points are measured from tip of point to nearest edge of beam as illustrated. Beam tip is counted as a point but not measured as a point. Point totals do not add into the final score.
B. Tip to Tip Spread is measured between tips of main beams. Tip to tip spread does not add into the final score.
C. Greatest Spread is measured between perpendiculars at a right angle to the center line of the skull at widest part, whether across main beams or points. Greatest spread does not add into the final score.
D. Inside Spread of Main Beams is measured at a right angle to the center line of the skull at widest point between main beams. Enter this measurement again as the Spread Credit if it is less than or equal to the length of the longer main beam; if greater, enter longer main beam length for Spread Credit.
E. Total of Lengths of All Abnormal Points: Abnormal Points are those non-typical in location such as points originating from a point (exception: G-3 originates from G-2 in perfectly normal fashion) or from bottom or sides of main beam, or any points beyond the normal pattern of five (including beam tip) per antler. Measure each abnormal point in usual manner and enter in appropriate blanks.
F. Length of Main Beam is measured from the center of the lowest outside edge of burl over the outer side to the most distant point of the main beam. The point of beginning is that point on the burl where the center line along the outer side of the beam intersects the burl, thus following generally the line of the illustration.
G-1-2-3-4. Length of Normal Points: Normal points are the brow tines and the upper and lower forks as shown in the illustration. They are measured from nearest edge of main beam over outer curve to tip. Lay the tape along the outer curve of the beam so that the top edge of the tape coincides with the top edge of the beam on both sides of point to determine the baseline for point measurement. Record point lengths in appropriate blanks.
H-1-2-3-4. Circumferences are taken as detailed in illustration for each measurement. If brow point is missing, take H-1 and H-2 at smallest place between burl and G-2. If G-3 is missing, take H-3 halfway between the base and tip of G-2. If G-4 is missing, take H-4 halfway between G-2 and tip of main beam.

BOONE AND CROCKETT CLUB® MATERIALS RELEASE FORM FOR ALL NON-HUNTER-TAKEN TROPHIES

I certify by my signature that the information I have provided on this form is accurate and correct. I also understand that all my entry materials, including photographs, as well as any additional photographs taken by Boone and Crockett (our representatives or agents) during Awards Programs or Judges Panels, or likenesses rendered from these photographs become the property of the Boone and Crockett Club and may be used to promote the Club, and its records-keeping activities.
